**Subject:** RE: Section 5 Monitoring Plan  
[Section5MonitoringPlan.pdf](#)

Hello Tre-

After the Unified Command reviewed the plan, there is one revision for this plan. See below.

Page 6 – 5.0 Contingency Plan – “In the event that oil seepage, slope erosion, or other conditions that could result in discharge to the

ocean above Phase II endpoints are observed, the monitoring team will contact personnel listed on the

Monitoring Checklist, that includes agency representatives.” Please change to “... the monitoring team will contact personnel listed on the

Monitoring Checklist, that includes agency representatives. They will also contact CalOES and NRC.”

Also in the Monitoring Checklist (page 6 of Attachment # 1), include the call numbers for National Response Center and California OES.

NRC: 1-800-424-8802

CalOES: 1-800-852-7550

Thanks

Jennifer

**Subject:** Section 5 Monitoring Plan

Hello unified command-

Here is the Section 5 monitoring plan for your review and comments. Please respond back to the full group regarding your approval of this plan. This plan has already gone out to various stakeholders for their review, comments and approvals. At this point the Water Board, Santa Barbara County Planning and Development, Coastal Commission, Santa Barbara County EHS and myself have approved this plan. Please review this plan at your earliest convenience. I am hoping we can get unified command's approval before tomorrow's unified command meeting at 10 am. Thanks

Jennifer
